The proposed delivery models intend to push the focus of our services to serve individuals with disabilities directly through a community-based organizational structure. The service delivery model will help construct the fiscal year 2021 contract with Vocational Rehabilitation.

a. **Category: Standing Item**

b. **Attachments**

1. **Service Delivery Proposal 1**

Proposal one focuses on partnering with Centers for Independent Living (CIL) around Florida for device demonstrations and training. Incorporating existing RDC staff to assist with high tech assistive technology (AT) demonstrations and training, remotely. The CIL's would also be contracted to attend events in their community for public awareness. State Headquarters would host a majority of device loans and information and assistance activities. Headquarters would also carry out some public awareness activities.

2. **Service Delivery Proposal 2**

Proposal two focuses on partnering with CILs to better reach individuals in their community. The CILs would demonstrate and train on lower level equipment while also attending community events. This model includes contracting with Assistive Technology Professionals (ATP) to carry out a majority of the demonstrations and training. The ATPs would meet with clients in the CILs to demonstrate high tech AT devices. State Headquarters would host a majority of device loans and information and assistance activities. Headquarters would also carry out some public awareness activities.

3. **Service Delivery Proposal 3**

Proposal three suggests keeping the current Regional Demonstration Centers (RDC) with different contract terms in order to expand our ReUse Program to all the CILs. Contract modifications for RDC's include individual-focused deliverables, expanded program reach, and opportunity to be a ReUse Center. Centers would also have more of a role in community events and public awareness. State Headquarters would host a majority of device loans and information and assistance activities. Headquarters would also carry out some public awareness activities.

c. **Purpose/Statement**

1. **This agenda item will present to the committee the staff recommendations for the new service delivery model and contract with VR. These recommendations are used as a starting point for the committee to review and discuss.**

Ms. Howell suggested contracting with an ATP to provide training YouTube videos on AT for the CILs to have on hand to show the clients, before getting the ATP involved directly. Mrs. Kretschmer added there are videos already created that FFAST can utilize and share on the channel to provide the information without having to create new content. Creating new videos only to fill in where there is not enough content already available.

Ms. Kretschmer suggested fostering a partnership between FFAST and CILs by attending the events they host.

Members suggested combining proposals two and three.

d. **ACTION NEEDED**

Task: Staff will rewrite the proposals with member recommendations and send them to committee members individually. Depending on the response, another meeting may be arranged before presenting to the Assistive Technology Advisory Council February 2020 Meeting.
